

## FINANCIAL AND COMMERCIAL.

THURSDAY, June 4.—6 P. M.

Money is easier to-day, and good borrowers, with good collateral, have more offered at six than they can well use. On the lighter fancies the rate was still seven. The large disbursements from the Sub-Treasury seem to be telling on the loan market. Debt certificates are 2% lower. First class mercantile paper cannot be quoted higher than 5% & 6 per cent.

Gold opened about 146, without much activity; rose after the first board to 147, sold in the afternoon at 146%, 146½ and 146¾, and closed at five P. M. about 145½.

Exchange ruled about 160 a 161, with a pretty active business demand at this rate, owing to its cheapness relatively to gold. The leading draymen ask 161 for their bills, while the number of such bills about in the street enables buyers to procure them in the market at 160, or even a little lower.

Before the morning session of the board stocks were dull and lower; but the feeling was better on the call, and at the close of the session, though lower figures were made, Pacific Mall fell ½, New York Central 1½, Erie ½, Hudson ½, Harlem 2, Island 1½, Prairie 2½, Ohio and Mississippi 1½. Governments were without change, railroad bonds inactive. The disposition to buy became more marked after the call, and was strong enough to raise prices at the one P. M. call, the improvement continuing at the afternoon board, when prices all round showed a marked improvement from the low rates of the earlier part of the morning. Erie, Central and Harlem were in free demand, at about 2 per cent over the lowest prices of the morning board, while the Western last showed an advance of fully 1 per cent. At the four P. M. board the market was steady at the advance of the afternoon, closing without further change. The closing quotations of the day were as follows:
